DOMINION ORDERS IN COUNCIL.

[Ref. 1,194,153.]

AT THE GOVERNMENT HOUSE AT OTTAWA

Wednesday, the 16th day of May, 1906.

PRESENT:

HIS EXCELLENCY THE GOVERNOR-GENERAL
IN COUNCIL.

ON a Report dated 7th May, 1906, from the Minister of the Interior, stating that Mr. John Oliver is the purchaser of legal subdivision 1 of Section 16, Township 40, East Coast Meridian, as the assignee through a chain of assignments from the original purchaser; that part payment has been made by the purchaser and that an application for a reduction in the purchase price has now been made on the ground that

the low lying portion is in the Upper Coquitlam Dyking area and is liable to a very heavy charge for dyking as well as a very heavy annual charge for maintenance for dykes, pumping, etc.

The Minister further states that the Agent of Dominion Lands at New Westminster, who was asked to report in the matter, now states that he made a fresh inspection of the parcel and found about one-half to be of no intrinsic value; and suggests that Mr. Oliver be treated on the same basis as Messrs. Donald McLean, John Morrison and R. G. Mounce and the Corporation of the City of Vancouver, in whose favour patents were issued for certain portions of land in Sections 4, 5 and 8 in the said township on the completion of the purchase money at the reduced rate of \$2.50 per acre.

The Minister also states that, with reference to the case of Donald McLean, John Morrison and R. G. Mounce, to which the Agent alludes, that these persons and the Corporation of the City of Vancouver were permitted to purchase at the rate of \$5.00 per acre certain portions of land in the sections mentioned and that part payment having been made and it having been represented that the work of dyking had been more expensive than originally contemplated and that much expenditure would still be required, it was decided that the price should be reduced to \$2.50 per acre, and an Order in Council, dated 3rd January, 1903, was, in consequence, passed authorising the issue of patents to the purchasers on the completion of the purchase money at the reduced rate of \$2.50 per acre.

The Minister submits that the case of Mr. Oliver is in his opinion similar to that of the individuals and the Corporation above mentioned and he, therefore, recommends that he be authorised to issue a patent to Mr. Oliver for the said legal subdivision 1, of Section 16, Township 40, East Coast Meridian, on the completion of the purchase money at the reduced rate of \$2.50 per acre.

The Minister also states that it has also been suggested by the Agent of Dominion Lands that the scraggy timber on the rock portion of the legal subdivision in question shall not be reserved in the patent as such timber would serve as a shelter for stock and could be utilised for fuel; and in this connection draws attention to the fact that clause 14 of the British Columbia Regulations, approved by an Order in Council, dated 17th September, 1889, provides that timber had to be reserved in all patents for lands in the Railway Belt in British Columbia, and that the Order in Council of the 15th July, 1889, and the 19th May, 1902, exclude only from the operation of this clause homesteaders who have earned their patents.

The Minister, therefore, further recommends, as he is of the opinion that the suggestion made by the Agent that the timber be not reserved in the patent should be approved, that the scraggy timber on the rock portion of the said legal subdivision 1 of Section 16, Township 40, East Coast Meridian, be not reserved in the patent.

The Committee submit the same for approval.

JOHN J. MCGEE,

Clerk of the Privy Council.

NEW WESTMINSTER BY-LAWS.

PLUMBERS & PLUMBING REGULATION BY-LAW, 1906.

A By-Law to License and Regulate Plumbers and to provide for the appointment of Plumbing Inspectors, and to provide for the Plumbing and Drainage of Buildings.

WHEREAS it is desirable and necessary to license and regulate plumbers in the City of New Westminster, and to provide for the appointment of Plumbing Inspector, and to provide for the effective plumbing and drainage of buildings:

Therefore the Council of the Corporation of the City of New Westminster enacts as follows:—

1. The Council may, from time to time, as occasion may require, appoint an Inspector for plumbing, and any such Inspector shall be under the supervision of the Board of Health and be given such remuneration for his services as the Council shall determine.

2. A Board of Plumbing Examiners shall be appointed annually by the Council. The Board shall be called together by the Plumbing Inspector, who shall be Secretary of the Board, at such times as the Council may find necessary.

3. In case any dispute arises under this By-Law as to whether any person or persons employed by any licensed master plumber is a regularly educated practical and experienced plumber, as in this By-Law is provided, the Plumbing Inspector may notify the said workman to appear and be examined before such Board of Examiners, whose decision as to the competency of such workman shall be final and conclusive.

4. Certificates of competency may be granted by the Board of Examiners to any plumber producing proof satisfactory to them that the applicant has undergone satisfactory training and due examination, and, in absence of such proof, to any applicant who shall after an examination before the said Board be considered by them to be competent, and such certificate shall be recorded in the office of the Plumbing Inspector, the person receiving the same paying a fee of \$1 therefor, and such plumber shall be a registered plumber of the city:

Provided that the Chairman of the Board may grant, on being satisfied with the competency of any journeyman plumber applying for the same, a temporary permit to such plumber for a period not exceeding thirty days, which permit shall confer on such plumber the same privilege for that period only as if he held a certificate from the Board of Examiners.

5. Upon and immediately after the passage of this By-Law, and in every ensuing year on or before the first day of July, any persons desiring to carry on business or trade as a master plumber within the City of New Westminster shall take out a licence, which licence shall be posted up in the office or shop of the master plumber at all times, for which he shall pay at

the time of the issuing thereof a sum of \$20. Except, as hereinafter provided, any person may take out a licence under the provisions of this By-Law on behalf of a partnership, firm or company of which he may be a member.

6. No person shall receive such a licence unless he has a place of business within the City of New Westminster, and furnishes a bond binding himself to the amount of \$500.00, with at least two sureties in the sum of \$250.00 each to the satisfaction of the Finance Committee, or a bond to the same amount from a Guarantee Company, that he will employ only registered plumbers who have received and hold a certificate of competency from the Board of Examiners to do all such plumbing work as he may engage to do, and whether he is a practical plumber himself or not, will not permit or allow any such work to be done in connection with the business except by such registered plumbers, and that he will not violate any of the terms and conditions, rules and regulations contained in this By-Law, or in any other By-Law which shall come into force from time to time in the City of New Westminster respecting plumbing, drainage, sanitary matters and water works within the said city.

7. Every person desiring such licence shall file with the Inspector of Plumbing a petition in writing giving name of applicant, and, in case of a partnership, the name of each member thereof, together with the place of business, and asking to become a licensed master plumber, and said petition shall be accompanied by the bond and fee hereinbefore mentioned.

8. Any change of firm or location of the business shall be promptly reported to the Plumbing Inspector, and the licence shall be kept in a conspicuous place at the location of the business.

9. When any member of a partnership or company is licensed individually for the partnership or company, the licence may be issued in the name of the firm, co-partnership or company, the said licence setting out the names of the members of the firm, co-partnership or directors of the company, and the date the licence was granted, and no licence so granted shall be transferable except with the permission of the Plumbing Inspector.

10. All licensed master plumbers shall be held responsible for all acts of their employees in connection with their business for which such bond and licence is issued.

11. Every such bond and licence shall be for the year current at the time of the granting thereof, and shall expire on the 15th day of January next succeeding the date of issue.

12. Upon satisfactory evidence furnished to the Plumbing Inspector that any master plumber has been twice convicted by the Police Magistrate or a Justice of the Peace of any violation of the provisions of this By-Law, or any of the By-Laws respecting plumbing, drainage, sanitary matters or water works, his licence shall be, *ipso facto*, forfeited and returned to the Inspector.

13. Any master plumber whose bonds and licence may become forfeited shall not again be entitled to a licence until the said declaration of forfeiture shall be revoked by the Plumbing Inspector, and if such Master Plumber is carrying on his business in co-partnership or as a member of a company, the co-partnership or company shall not carry on the business of plumbing from the date of such cancellation.

14. Before proceeding to construct, re-construct, alter or change any portion of the plumbing, drainage or ventilation of any building the owner, his agent, or the master plumber constructing the same shall file in the office of the Plumbing Inspector an application for a permit therefor, and such application shall be accompanied with a specification or abstract thereof, in a blank form prescribed and supplied for that purpose by the Plumbing Inspector, stating the nature of the work to be done and giving the size, kinds and weights of all pipes, traps and fittings, together with a description of all closets and other fixtures, and a plan with a description of the locality sufficient for identification, and showing the drainage system complete. Plans must be legibly drawn in ink on a scale of one-eighth inch to the foot; provided, however, that this clause shall not apply to small repairs which do not alter the plan of the plumbing.

15. A permit shall be granted or refused within seven days from the time of filing of the application, and the permit of the Plumbing Inspector (if granted) shall be valid for six months from the date of issue.

16. If the Plumbing Inspector shall find that the said plans and specifications do not conform with the rules and requirements laid down in respect to plumb-

ing and drainage in the By-Laws of the City of New Westminster, he shall not issue any permit for the plumbing and drainage, and it shall be unlawful to proceed therewith,

17. After a plan or specification has once been approved no alteration or deviation from the same will be allowed, except with the written consent of the Plumbing Inspector.

18. From and after the passing of this By-Law every owner, or agent of an owner, of any building, doing or causing to be done any plumbing in such building shall, on the same being passed by the Plumbing Inspector, be granted a certificate that such plumbing has been done in accordance with the City By-Laws, and on being requested to do so shall deliver such certificate to any person proposing to purchase or occupy such building.

19. No part of any plumbing or drainage work shall be covered or concealed in any way until it has been examined and approved of by the Plumbing Inspector, to whom notice must be sent when the work is sufficiently advanced to be inspected, unless in the case of drainage below the surface of the ground, which the Inspector has failed to inspect within the five working hours next ensuing after being notified, then the ground may be filled in, in case of an emergency affecting the public safety.

20. All materials must be of good quality and free from defects, and the work must be executed in a thorough and workmanlike manner.

21. The arrangement of soil and waste pipe must be as direct as possible.

22. The soil, waste and ventilating pipes and traps must, where practicable, be exposed to view for ready inspection at all times and for convenience in repairing. When necessarily placed within partitions or recesses of walls, soil, waste and ventilating pipes must be covered with woodwork so fastened as to be readily removed. In no case shall they be so placed as to be absolutely inaccessible, unless under written permission from the Plumbing Inspector.

23. When the ground is made or unsound the house sewer shall be of medium or standard cast-iron or brass pipe, with joints properly caulked with lead.

24. In sound ground, provided it is outside of the building, hard salt, glazed, vitrified pipe may be used. Each length shall be wetted before being laid and the space completely filled with cement mortar, made in the proportion of two of good, clean, sharp sand and one of the best Portland cement, except in wet ground, when a gasket shall be placed around the spigot and forced down to the bottom of the socket and finished with mortar cement, as described above. Each pipe must be cleaned out with a mop after being laid. The different lengths must be laid in perfect line on the bottom and sides. All connections must be through "Y" junctions.

25. Any soil pipe passing through a building, or beneath the floor of a cellar or basement, shall be of cast iron or brass, as in section 23, and shall extend to at least five feet outside the building, and no wall shall be built leaning solidly upon the same.

26. Every vertical soil pipe shall be of cast-iron or brass, and shall extend a sufficient height above the highest window, roof, or coping, or light shaft, to the satisfaction of the Plumbing Inspector.

27. No rain water down pipe, or chimney flue, shall be used as a ventilator for any sewer trap, soil or waste pipe, or as a soil or waste pipe.
